

English

We will be basing our current writing on the book 'Coraline' by the author Neil Gaiman. We will be focussing on creating imaginative and creative setting descriptions through using: different sentence types including using relative clauses, list sentences and generating interesting vocabulary. In reading, we will be focussing on word meaning in context and inference skills to further develop our understanding.

Maths

In maths we are learning about mixed numbers, improper fractions and adding and subtracting fractions with different denominators. We will also look at statistics this term and learn how to find averages when working with data.

Topic

Our topic is 'Crime and Punishment'. Starting with the Roman Empire and travelling through history to how we prevent, detect and punish different crimes today. We will be looking at different eras and how this has changed and evolved as time has passed.

HAWKSWORTH WOOD PRIMARY SCHOOL Curriculum Newsletter

Summer Term 1

Class 6A and 6W
Mrs Anderson, Miss Semley and
Mr Wright

Important Dates
